Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Monday 20 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Less murky in the east but cloudier further west.

Today:
Less dull in the east than of late but cloudier for areas west of Dartmoor. The breeze across southern Cornwall continuing through the day, making it feel colder here. Maximum temperature 9 deg C (48 deg F).

Tonight:
Cloud breaking up for eastern areas overnight. Turning cold under these clear intervals with a local frost and isolated fog patches. Staying cloudier, breezy, and less cold in the west. Minimum temperature 1 deg C (34 deg F).

Tuesday:
After a chilly start in the east, a notably brighter day with sunny intervals, though feeling rather cold. Cloud breaking in the west with the breeze becoming less strong. Maximum temperature 8 deg C (46 deg F).

Outlook for Wednesday to Friday:
Another widely frosty start to Wednesday with a few fog patches. Sunny spells and feeling rather cold during the day. Turning more unsettled and milder into Thursday and Friday.
